Foot Wipes

Removing odor and cleaning feet

Mildly acidic

Fragrance-Free

- 40 wipes per pack
- Sheet size: 200 x 300(mm)

- A new standard in foot hygiene. Large, thick wipes for quick and easy foot care
- Formulated with natural cleansing ingredient SOFORO^{※1} and antimicrobial agent PHMB^{※2} to keep foot hygienic
- Contains Coix extract as a deodorizing ingredient to effectively eliminate unpleasant foot odor
- Can be heated in a towel warmer or microwave with the container (open the lid when heating)

Heatable

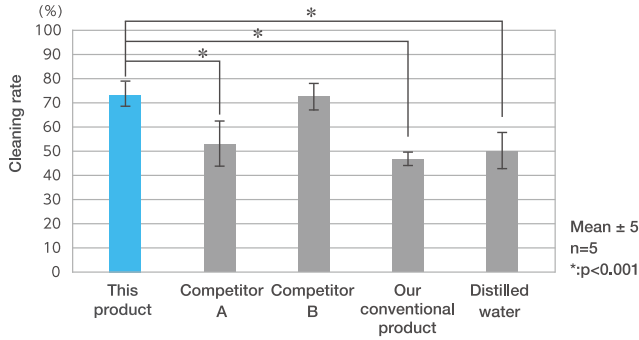

*Natural Ingredient: Sophorolipid

※1 Sophorolipid is a naturally derived biosurfactant produced by yeast fermentation using plant oils and sugars. Made from renewable raw materials, it reduces CO₂ emissions during production and is biodegradable after use, minimizing environmental impact. It offers excellent cleansing performance with low skin irritation, making it suitable for hand soaps and healthcare hygiene products. This ingredient supports both safety and sustainability.

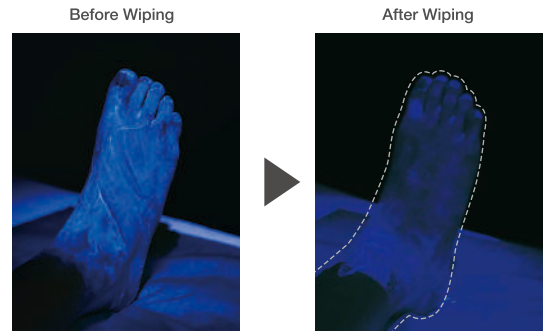

※2 Abbreviation for Polyhexamethylene biguanide

Cleansing Efficacy

Cleansing efficacy was evaluated using artificial sebum based on the method described in JIS S 3303 (Test methods for the antimicrobial performance of wet wipes).

Compared with both our own and competitor's body wipes, this product demonstrated superior cleansing performance.

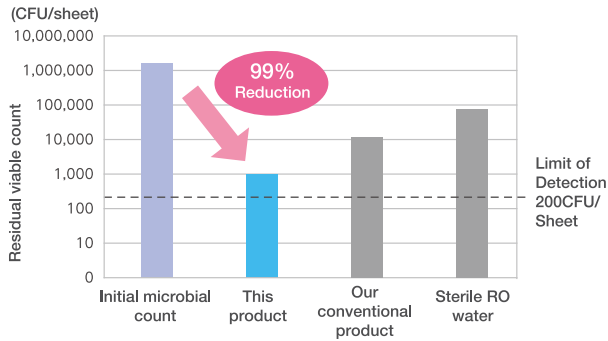

*Foot coated with fluorescent dye, wiped using the foot wipe

Effectively removes dirt with wiping alone.

Fungicidal Efficacy

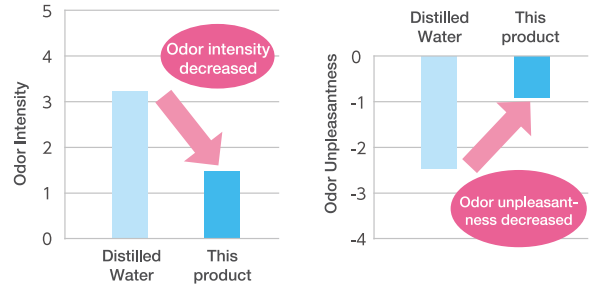

The removal efficacy by wiping against fungi was evaluated based on JIS S 3303 (Test methods for the antimicrobial performance of wet wipes) (n = 3, mean values shown).

Compared with our conventional product and sterile RO water, this product demonstrated a greater reduction in residual fungal counts.

Deodorizing Effect

A 100 μ L aliquot of a model odorant aqueous solution was applied to filter paper. Subsequently, 100 μ L of this product solution or distilled water was added to the same filter paper. Odor intensity and unpleasantness were then evaluated by eight healthy adult volunteers (male and female). (The figures below show average values.)

Reduces both odor intensity and unpleasantness, demonstrating a deodorizing effect.

Directions for Use (Example)

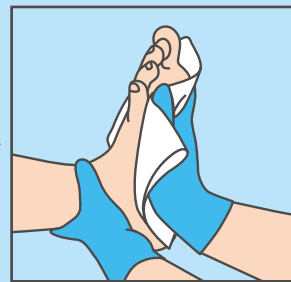

One sheet is suitable for cleansing one foot.

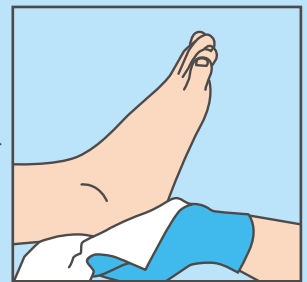

① Cover the toes and cleanse the toenails.

② Cleanse the toes and between the toes.

③ Fold the sheet and cleanse the sole

④ Cleanse the heel, around the ankle, and any other areas of concern.

Heating Instructions

Guideline for Microwave Heating

Remaining sheets	40~31 sheets	30~21 sheets	20~11 sheets	10~1 sheets
Heating time	500W	Approx. 150 sec.	Approx. 120 sec.	Approx. 70 sec.
	600W	Approx. 120 sec.	Approx. 100 sec.	Approx. 60 sec.
		Approx. 20 sec.		

*Open the lid when heating.

*When using a towel warmer, store at a maximum of 45°C for up to 8 hours. Prolonged heating may cause drying, so please avoid exceeding this limit.

Product	Content	Units per Carton	Product Code	JAN Code
Skinaru Foot Wipes	40 wipes	24	42425	49-87696-42425-8
